■ Summary

In the IT industry and the Internet-based gaming industry, human technology is evolving from digital to virtual reality.

Among blockchain technologies, it consists of an ecosystem that maintains the value of digital assets through N.F.T It is becoming a reality that N.F.T can be used in interesting and constantly evolving games and living environments. Non-functional Token (NFT) technology generates ownership of digital assets and has many advantages that have not been previously implemented.

Horse racing is often called the "king's sport" and is a major contributor to sports betting.

We want to reveal this interesting sport to more fans with the concept of the metaverse game "horse racing." Enjoy all the excitement by allowing game players to own virtual assets while significantly lowering entry costs and participating in the "horse race" of their own horses!

"Metafastest" is an imaginative fun-filled NFT horse racing platform game, a virtual digital game, but an NFT-based game of the TRON-based "blockchain" ecosystem.

(Metabus is a virtual technology that goes to a world where reality and non-realism coexist by combining meta and universe) Meta-test is a platform where athletes can race, reproduce, and trade horse racing.

■ Metafastest

“**M**etaFastest” is an N.F.T.-based racehorse gaming provided to players in countries where P2E games are allowed. With the opportunity to own and manage their stables, the excitement of digital horse racing and breeding their own digital racehorses, our platform is designed to include easy-to-access system dynamics and maintains many fun elements in digital racehorses.

It is a traditional type of game that grows racehorses and fosters them as the best racehorses by challenging and frustrating in various aspects of the game. With player ownership in mind, “Metafastest” provides many unique elements to the core value proposition, as a platform designed from scratch based on digital speech. One such feature is that it includes retired horses as dynamics that affect growth and growth. the evolution of racehorses This introduces the realistic elements of horse growth and observation. Gradually reveal potential and add time elements to add novelty. Depending on the competition environment, all new players will be given the opportunity to manage racing that the champion will never dominate.

“MetaFastest” gaming is designed to be realistic, so those who enjoy horse racing in real life will also like the video of the game to be true to tradition. In the evolving digital age, in a space full of “metaverse” and digital avatars, “MetaFastest” remains a classic obedience to the balance and words of the two worlds.

Funny, quirky, cute, fantasy, sci-fi, smooth, or totally cool, the player truly expresses himself through the appearance of the horse. We continue to strive to provide true ownership of N.F.T. and a smart, secure, decentralized transaction and convenient system.

► Racehorse Gaming

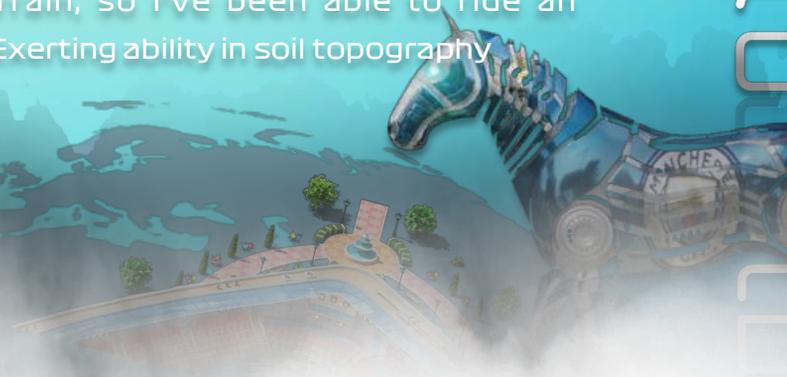

Each horse is unique, but the player can use the following to make the horse stand out. A variety of fun skins. This includes the theme or seasonal skin.

Four racehorse pedigree

- The purple-eyed Legendary racehorse is the most rare in the Meta Fastest (up to 10% of the total)
- The red-eyed Epic racehorse is the second highest in the Meta Fastest (up to 20% of the total)
- The yellow-eyed Rare racehorse is the third highest in the Meta Fastest (up to 30% of the total)
- The blue-eyed Common racehorse is the richest in the Meta Fastest (up to 40% of the total)

Four racehorse breeds

- **LIGHT** : A light racehorse capable of breaking through quickly at the end of the race is capable of a light-filled environment
- **FIRE** : From the first stage of the race, a fire racehorse with explosive acceleration is capable of a burning environment
- **WATER** : A water race that brings the enduring power of water and easily overcomes long races without fatigue to show one's ability
- **EARTH** : I've participated in thousands of races and I've overcome hundreds of complex terrain, so I've been able to ride an unshakable dirt racehorse Exerting ability in soil topography

Racehorses are distinguished by gender

In METAFATEST, male and female racehorses appear, each with or without children.

In addition to going to races, they can mate with each other and generate profits for owners. A female horse may have ownership of a foal born by paying for mating when a horse breeds.

the dimensions of a racehorse

- FS: Speed at departure
- MS: Race Medium Speed
- LS: Speed at the end of the race

► Crossbreed

Racehorses have two genders and are divided into male horses (25%) and female horses (75%).

It doesn't affect the race simply because of gender. However, planning to breed racehorses is a very important decision, as it can affect racehorses' race dimensions (FS, MS, LS) depending on their lineage and breed.

Female horses can receive a slightly larger premium because they can pay for their breeding and have ownership of the foal, and male racehorses can be placed in stallions for two to seven days. Once a racehorse enters the kennel, it cannot be taken out until the breeding period is over. Male racehorse owners can determine the price of mating and receive a portion of the mating fee.

The number of times a female horse can be cross bred 5 times a month and 15 times a month (6 times a month) for male horses, and horses that have completed mating will be eligible to participate in the race.

Interbreeding formulas and genetic algorithms

MF	Legendary	Epic	Rare	Common
Legendary	Legendary	Epic	Rare	Common
Epic	Epic	Epic	Rare	Common
Rare	Rare	Rare	Rare	Common
Common	Common	Common	Common	Common

► Race

Racehorses truly come to life at the racetrack. Metafast's race is based on: For users to experience all the thrill of horse racing, Metatest's environment runs on the basis of "metaverse" (a combination of meta and universe) and supports interaction with virtual content, such as overlapping or touching virtual images on real images.

Race games are divided into league games and super save games. You need 2% of the price of a racehorse to participate in one race, and you can participate a total of three times a day (initial utc00 hours).

In the league games, the racehorses who reach the Alpha Mal pay their respective fees and distribute the paid fees by ranking. Super Save is the highest super save prize in the top league, competing with hero (new) racehorses, and the estimated prize money is more than 700,000 USD per week.

The speed of the racehorse depends on the conditions of the racecourse and the attributes of the racehorse. For example, participate with horses of each attribute that is appropriate for your environment, just as an underwater racehorse can run faster in wet weather or humid temperatures.

► Growth

You can upgrade the basic skills of your own racehorse by upgrading the 4 elements of the stamina attribute. Feeding the preceding (hay) increases the start speed to +15 (0.015) in 0.001 seconds from the current capability.

Endurance - Increase to +30 (0.030) in 0.001 seconds per session. (Experience) Increasing by 0.001 seconds per draw (carrot) + 15 (0.015) Physical strength (force) rises to 0.001 seconds + 15 (0.015) per session.

Vitamin - Precedence +15 / Endurance +30 / Injection +15 Total increase when taken daily.

Condition (Resting) - Ability gauge can rise from 50 to 100 per racehorse after listening to music, watching videos and relaxing.

► N.F.T Policy

Metafastest NFT has an open (no lock) policy that allows access.

Updates and Evolution - Other Metafastest NFTs have lockout policies as needed and follow recommended practices. All horse NFTs include 5% royalty.

Market Sales of Policy Identifiers - Applicable to the following NFT marketplaces and support creator royalties: Each NFT type has a separate policy ID and has been validated in all major Cardano NFT markets.

► Token Policy

MetaF GAS / STAKING META.F / MetaX TOKEN is based on POLYGON (MATIC) / TRON (TRC2.0).

Compatible (synchronized) with all Ethereum WALLETS. You're free to trade with any of the Ethereum Foundation's tokens. MetaF GAS tokens are used to trade racehorses or use the market within the game.

MetaX tokens can be obtained through DEX, game participation, event through leaderboard, and airdrop.

You can buy and sell it on the STAKING META.F cryptocurrency exchange and cash it in your cryptocurrency wallet.

Coin Name : METAF

Coin unit : USD

Algorithm (Type) : TRC 2.0

Total issuance : 800.000.000 Metaf

Issue date : 2022.06

■ Business Model

1. You can easily recruit users by logging in to your wallet with Tron et al. (Dao)

If you show their NFT collection on the profile page, they will actually trade. In the case of other companies, it will be sold when it is listed on the market, but the Metafastest platform creates a society and ecosystem by bringing SNS in a different dimension where transactions are activated and profits are realized through various events and rewards.

2. Users of distribution and display campaigns can be interested in each other throughout the community..

3. Three different types of users

- ▶ Seller trading ~ The popularity of good racehorses increases in grade and value.
- ▶ Buyer/Collector Transactions ~ Increase Transaction Activation
- ▶ It encourages customer transactions and activities to encourage platform P2E, and in the future, Token, which is listed in cooperation with famous NFT exchanges around the world, also increases its value because there are many transactions.

4. The influence of this platform, one NFT, allows users to participate in the game and earn profits from P2E based on value.

CryptoBet

■ Profit structure

Import "NFT SOCIAL FI", [Transaction Fee, Subscription and Service Fee]

- ▶ 15% Company Operating Fund
- ▶ Earnings and prize pool from a 20% hybridization reimbursement of accrued revenue ----> Community incentives, funds, etc..

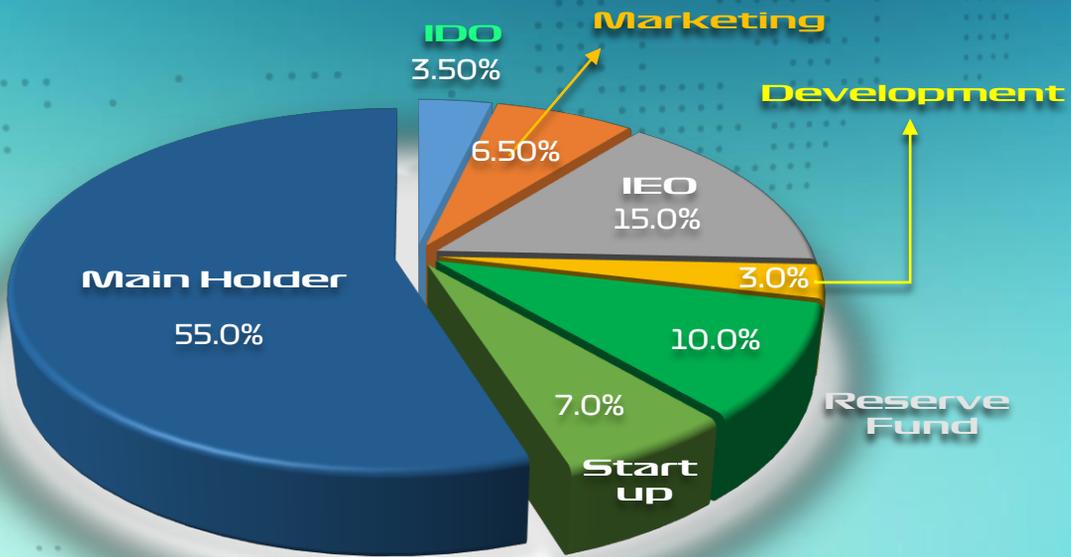

Token Ecosystem

Total quantity 800,000,000 Token

- IDO (initial DEX offering) 3.5%
- Start-up team 7%
- IEO (initial exchange offering) 15%
- System Development Team 3%
- Reserves 10%
- Marketing 6.5%
- Main Holder 55%

Distribution

Sortation	Dividend [%]	Metazf	Token Release
IDO	3.50	28,000,000	Unlock 25% on the platform, lock it in the first month, and then receive it sequentially monthly for 3 months (4 months in total)
Startup	7.00	56,000,000	Locked for 6 months; unlocks 10% tokens quarterly
IEO	15.00	120,000,000	Unlocks 8% on the platform, locks for 2 months, then receives sequential monthly benefits for 18 months relative to the staking amount
System Develop	3.00	24,000,000	Locked for 6 months; unlocks 10% tokens quarterly
Reserve Fund	10.00	80,000,000	Fixed in the first month and then received monthly sequentially for 48 months.
Marketing	6.50	52,000,000	Unlocked 1.5% on the platform and received 36 months in sequence.
Main Holder	55.00	440,000,000	Unlocks sequentially within 48 months of game launch.

METAF Token Information

- ▷ Project Name : **Metafastest**
- ▷ Website : **metaf.global**
- ▷ NFT : **TRX721 Base**
- ▷ The currency used : **METAF TOKEN**
- ▷ Token : **TRC20 Base**
- ▷ Price : **0.1 USD**
- ▷ Quantity : **800,000,000 METAF**
- ▷ Compatible with all Ethereum wallets (synchronized)
- ▷ 2% of the price of a racehorse to participate in one race
You can participate three times a day (initial UTC 00:00)

- ▷ METAF GAS/Staking METAF TOKEN is TRON (TRC 2.0) based.
- ▷ Compatible (synchronized) with all Ethereum wallets.
You can trade freely with the Ethereum Foundation's tokens.
- ▷ METAF GAS tokens are used to trade or market in-game METAFAST NFT racehorses.
- ▷ Staking Metaf Tokens can be sold on cryptocurrency exchanges (Cash from cryptocurrency wallets).
- ▷ METAF tokens are used as part of game products and affect supply and demand, which increases in value due to low supply amid high demand.
- ▷ As the METAF token opened its Arena Stadium during a month-long listing price limit, its value was bound to increase as the number of global players increased.

■ Development Plan

▶ First 1 to 2 months

- Core Team Formation
- Algorithm and White Paper / Completed February 7, 2022
- Platform Design
- NFT Complete Social Platform Early Web Page
- Upper currency BSC Chain / ETH / Polygon (requires confirmation)
- Build an online community: Facebook, Twitter, Insta, telegram, decode...
- Community Spread

▶ 3 months

- A month long public contest at a third-party.
- a variety of publicity

**META
FASTEST**
METAFASTEST.COM

► 6 Months

- Organize an extended development team
- "NFT Metafasts" Platform
- Announcement and real-time new projects
- Platform Test
- Attract diverse marketing, engage more users
- Listed 1-3 (Major Exchange)

► 12 months

- Staking
- Open Platform
- Sales Platform "Metafasts" Open Sea
- Influential YouTuber invitation and promotion platform
- a Newsmaker

► Two or Three years

- Platform upgrade and development, new features
- Realize revenue through games. Service.
- 300,000 active users
- Upgrade Development App Version
- Automatic retention by crossbreeding
- Platform data, save, go to Web 3.0.
- Platform Diversification. High-quality D-FI Staking and GAME-FI Game Project, Platform Community
- The combination of finance and games. Build a cohesive and valuable metaverse.

Roadmap

■ Disclaimer

Please read all contents of this disclaimer carefully. If you are unsure about your future actions, we recommend that you seek advice from law, finance, tax, or other experts.

1) Legal notice

- a. This white paper is based on the time of writing, and was distributed for general reference purposes only in relation to coins / tokens and can be reviewed and revised. Please note that this white paper reflects the latest information based on the date of the cover and is not the final version. After that date, the information written in this document, including business operations and financial status of the project, can be changed. This white paper may be updated on an occasional basis.
- b. In any case, this white paper should not be construed as an offer to sell or buy any coins (or tokens) by the company / distributor, who is an issuer of METAF Coin (Token), and the presentation of this document or the document itself should not be relied upon or a basis for contracts and investment decisions.
- c. METAF Coin (Token) is not intended to constitute securities, units of business trust, or units of collective investment plans, and follows the definitions set forth in the equivalent regulations in other jurisdictions. Therefore, this white paper is not provided as a business plan, prospectus, proposal, etc., and should not be construed as an investment proposal or solicitation, such as securities, units of business trust, units of collective investment plans, etc. in any jurisdiction.
- d. METAF Coin (Token) should not be understood, interpreted, classified or treated as an opportunity for buyers to participate in relation to products and coins or to receive investment returns/ income/ payments/profits or any portion thereof.

- e. Reproduction, distribution, or dissemination of all or part of this document is not allowed in a jurisdiction where the coin (or token) issuance method specified in this white paper is regulated or prohibited.
- f. The information described in this white paper has not been reviewed, inspected or approved by any regulatory authority. No such action has been taken in any jurisdiction, and there will be no such actions in the future.
- g. If you wish to purchase METAF Coin (Token), you should not understand, interpret, classify, or handle METAF Coin (Token) as follows.
 - (i) Any currency other than cryptocurrency;
 - (ii) Bonds and stocks issued by any institution;
 - (iii) Rights, options and derivatives for these bonds and stocks;
 - (iv) Rights under contracts for difference and other contracts for the purpose of guaranteeing investment returns or avoiding losses or impersonating this purpose;
 - (v) Units of securities such as collective investment plans, business trusts, or derivatives

2) Restrictions on distribution and dissemination

- a. Distribution or dissemination of all or part of this white paper may be prohibited or restricted by the laws or regulatory requirements of any jurisdiction. If restrictions apply, you should familiarize yourself with the restrictions that may be applied by possession of this white paper, seek advice such as laws, and comply with them, and METAF Coin (or Token) and METAF Asset Management Co., Ltd. and METAF Investment Development Co., Ltd.'s employees, agents, affiliates, etc. (hereinafter 'METAF Asset Management and Affiliates') are not responsible for this.

- b. If you have read or possessed this white paper due to distribution and dissemination, you should not share this white paper or its contents with others in any other way, such as distribution, duplication, etc. or should not allow or cause this situation to happen.

3) Exclusion of responsibility

- a. METAF Coin (or Token) and related services provided by METAF Asset Management and affiliates are provided 'as is' and 'as available'. METAF Asset Management and its affiliates do not make any explicit or implicit guarantee or description regarding the accessibility, quality, suitability, accuracy, adequacy, completeness, etc. of 9/14 METAF COIN (or Token) and related services, and errors, and expressly state that they are not responsible for any errors, delays, omissions, or actions taken in reliance thereon.
- b. METAF Asset Management and its affiliates do not describe, guarantee, promise or assert to any entity or individual the authenticity, accuracy, or completeness in any form, including the information described in this white paper.
- c. METAF Asset Management and its affiliates are not responsible for contractual or illegal acts for any indirect, special, incidental or consequential losses arising out of your acceptance of or reliance on all or part of this white paper (including but not limited to loss and utilization of investment returns/ income/ profits and loss of data, etc.), and this will apply to the fullest extent permitted by applicable laws and regulations.

4) Warning on forward-looking statements

- a. Certain expressions specified in this white paper contain forward-looking statements regarding the future of business, future events, prospects, etc.

These contents are not statements based on historical facts and are identified by expressions which are similar to words such as 'plan,' 'estimate,' 'believe,' 'expect,' 'prospect,' and 'anticipate'. These forward-looking statements may also be included in other public materials such as presentation materials, interviews, and videos other than this white paper. Forward-looking statements contained in this white paper include, but are not limited to, the future results, performance, achievements, etc. of METAF Asset Management and its affiliates.

- b. Forward-looking statements involve various risks and uncertainties. These statements do not guarantee of future performance, and therefore you should not rely on them overly. If risks and uncertainties are materialized into reality, the actual performance and development of METAF Asset Management and its affiliates may differ from expectations set by forward-looking statements. Even if these circumstances change in the future, METAF Asset Management and its affiliates have no obligation to provide updates on forward-looking statements. If you act on the basis of forward looking statements contained in this white paper, METAF Asset Management and its affiliates' websites and other materials, you are solely responsible for the non-realization of the forward-looking statements.

- c. As of the date this white paper is written, METAF Coin (or Token) and METAF Asset Management and its affiliates' platform is not complete or fully operational. Although the description has been made on the premise that METAF Asset Management and its affiliates' business platform will be completed and fully operated in the future, this should not be construed as a guarantee or promise as to the completion and complete operation of the business platform.

5) Potential risk

We recommend that you carefully read the following before making a decision to purchase and participate in METAF Coin (or Token) to fully analyze and understand the relevant factors and risks. Risks include, but are not limited to.

- I. Risk of buyer's negligence related to storage, such as restriction on access to METAF Coin (or Token) due to loss of identification information, loss of essential private key related to the digital wallet, storing METAF Coin (or Token);
- II. Risk of value fluctuations after issuance of METAF Coin (or Token) due to global market and economic conditions. Due to the uncertainty in the value of METAF Coin (or Token), METAF Asset Management and its affiliates may not be able to support the funds necessary for the development of the METAF Coin business platform or maintain the METAF Coin ecosystem in the intended direction;

III. Risks related to changes in the social and economic environment, changes in the stock or cryptocurrency market environment, changes in the regulatory environment in the countries in which METAF Asset Management and its affiliates operate their business, and changes in the ability for METAF Asset Management and its affiliates to survive or compete in this environment. In certain jurisdictions, existing/new regulations related to block chain technology that are unfavorable to METAF Coin may be applied. As a result, significant changes may occur to METAF Asset Management and its affiliates, such as abolition/loss of METAF Coin (or Token).

IV. Risks related to changes in the future capital needs of METAF Asset Management and its affiliates and changes in the possibility of raising capital and funds to meet them. Lack of funds may affect the development of the business platform through METAF Coin and the use and potential value of METAF Coin (or Token)

V. METAF Asset Management and its affiliates may suspend activities, disband or stop launch plans due to various reasons, such as adverse fluctuations in the value of METAF Coin, failure of business relationships, and competitors' claims for intellectual property rights during development/operation, which may have a negative impact on the METAF Coin ecosystem and the potential use of METAF Token.

VI. Risks related to the lack of interest of companies, individuals, and other organizations in platforms and services developed through METAF Asset Management and its affiliates, changes in several intended business models, and limited public interest in the creation and development of distributed applications. This lack of interest may limit funding or affect the development of business platforms and the utilization and potential value of METAF Coin (or Token).

VII. Risks of applying major changes to the main functions and characteristics of the business model prior to launching or implementing the METAF Coin ecosystem. Although METAF Asset Management and its affiliates intend that the METAF Coin ecosystem and business model be consistent with the contents of the white paper, these changes may be applied.

VIII. Risks of competing with other platforms that could have a potentially negative effect on METAF Coin and its business model. (Example: Competing business has prevented commercial success or the prospects are bleak)

A risk that a third party or another individual intentionally or unintentionally implants harmful or malicious code on the METAF Coin platform to interfere with the METAF Coin platform infrastructure and utilization of METAF Coin (or Token). Since the blockchain used in the platform is also vulnerable to these attacks, it acts as a risk to the operation of related services.
